

NO HASSLE OFFER

There may be times when you wish to move a machine/display from one location to another. The most successful vendors in the business are the ones who feel equally comfortable stocking their machines or soliciting new accounts. Excel understands this. To assist you in this area we will provide you with location training. This will enable you to expand your vending business, or upgrade your present route, at your own pace. We also have written materials (available upon request) that will explain about various aspects concerning vending/locations.

We realize that not everyone has the time or inclination to secure their own locations. Some location companies offer a guarantee - with restrictions. We at Excel have a better plan:

To all of our clients who have fulfilled their original contracts we offer replacement locations at half of the original price.

***NO MASSIVE PAPERWORK** - Simply send a copy of your location list with the serial number of the machine you placed within the location. Can be sent in up to 14 days after installation.*

***NO TIME LIMITS** - While it normally takes at least thirty days to determine what a location will produce, we let you - the customer - decide when to move the machine/display.*

***NO RESTRICTIONS** - Each machine/display that you have registered with us can be moved For any reason, as often as you like, for as long as you own your equipment !**

***NO WRITTEN REQUEST FORMS** - Just call our office, we'll get a new contract out to you right away.*

THAT'S IT - NO HASSLES!!!

When you compare, we think you'll agree, our way makes more CENTS!

* In order to offer this guarantee Excel must be locating all of the equipment originally ordered. We can not offer this guarantee if client locates or contracts out any part of the initial order. **Guarantee is non-transferrable.**
